Christine, I'm not very familiar with this content are you? If you are, would you consider these significant updates or rather small updates?

Hi- Hope things are going well in D.C. I was hoping now was a good time to test the waters with some minor/low impact webpage updates. Please see the attached spreadsheet that has current and revised page IDs for our Estuary Data Mapper website. (I couldn't get the link to work directly, but if I went into "edit link," and cut and pasted into a browser, it works).

Please let us know what format you need this information in, and if there are any questions.

Also- do you have an estimate of the time the new process will take? We have a larger request for an update coming soon.

Thank you for your assistance,

Heidi

Heidi – Not quite sure how to proceed, so let's start this way...

Attached is a little spreadsheet with a link to the currently published page, a link to a version that's updated but unpublished, and a brief summary of what's different.

We need Web Comms to tell us it's OK to publish the updated pages.

I am assuming they can access these links so they can review the updates themselves. If they need more info, I can provide it.

Hi Christine,

I hope that you are doing well. Thank you for your previous help with website questions. I have another for you.

I'm in charge of our office's website - epa.gov/adr. I can make changes myself, but I'm wondering about the proper clearance procedures now. Are the procedures for updating websites the same or have they changed with the new administration?

My specific question is this: We recently had a video made to highlight some of our work. You can find it here - <https://www.youtube.com/watch?v=ZBITaxahAcw&feature=youtu.be> We went through all of the proper procedures to have it be used on the EPA's YouTube page. Can we just put a link to it up on our webpage or do we have to go through some type of clearance? If you don't know, do you know who I should ask?

Thanks so much!

I was thinking it still has to go through the web area form process, but I can see why the EIC is confused about that, because it's not clear from the guidance, and then I realized I could just be wrong.

Do we have to do the web area forms or is it just sending OWC some background and the draft page? I just want to be 100% on this.

Can you please have your staff check into this issue and determine whether or not that website is missing or inappropriately linked. If there are issues, can we restore that website in the Snapshot as it appeared on Jan. 19? Would there be any issues with that?

Thanks.

EPA.gov, the website for the United States Environmental Protection Agency, is undergoing changes that reflect the agency's new direction under President Donald Trump and Administrator Scott Pruitt. The

Spanish version of EPA's website, espanol.epa.gov, is also undergoing similar changes. The process, which involves updating language to reflect the approach of new leadership, is intended to ensure that the public can use the website to understand the agency's current efforts.

By webform results, do you mean the past emails that have come in? I would say we should download the past 30 days in case we have not responded to them.

If ALL content on the Contact Us page is to be replaced, then the language would be:

Because archived content is not maintained and may no longer apply, we have disabled contact-us and other information-submittal forms on this site, and have removed other contact information.

This is not the current EPA website. To navigate to the current EPA website, please go to www.epa.gov. You can contact us there via our [main Contact Us page](#).

In the case of the CPPToolbox, the contact us links got stripped out. The contact us page is
here: <https://archive.epa.gov/epa/cleanpowerplan-toolbox/forms/contact-us-about-clean-power-plan-toolbox-states.html>

We can add it back with some work on the archive server.

It got stripped inadvertently by me (I archived the contact us page first, which removed it from all
other pages). That means I need to modify a step to my outline, below.

7) Archive. Save Contact Us and home page for last.

Looping in Danny – Danny let's talk about the items below. OK, so y'all will delete the Contact Us form?

Three more things to consider re: Contact Us:

1. If there is a Regional or state contacts page, what do we do with that?
2. If there is an email address on the Contact Us page like on this one, do we delete that? I think so, if it is an individual person, but not if it is a group email.
3. If the form goes to a group email, as it does on the CPP site, then we could delete the form but add **Send e-mail to:** groupemailname@epa.gov

Subject: RE: Please archive Clean Power Plan toolbox

My notes:

- 1) Site owner must make sure all pages to be archived are published. Cannot proceed without this step.
- 2) Remove contact form from Contact Us page.
- 3) CPPT has 26 published pages.
- 4) Must change the site name (URL) so the right pages can be grabbed. I changed cleanpowerplanttoolbox to cleanpowerplan-toolbox
- 5) Delete all unpublished pages—those will not archive. Optional step.
- 6) Grab some PDFs just to verify they've been deleted properly from www:
https://www.epa.gov/sites/production/files/2015-06/documents/us_acid_rain_program_elec_journal_aug_2007.pdf,
https://www.epa.gov/sites/production/files/2014-11/documents/clean_power_plan_supplemental_proposal_webinar_11-5-14_final_v2pptx.pdf,
https://www.epa.gov/sites/production/files/2016-09/documents/alabama_C.pdf
- a. Check. These are 404 at www and 200 at archive.
- 7) Archive. Page by page, since we're not so sure about bulk archive. If we do try bulk archive, do it late at night or early in the morning.
- 8) OK, everything is archived at <https://archive.epa.gov/epa/cleanpowerplan-toolbox.html>
- 9) Next steps: rename back to cleanpowerplanttoolbox ... **do we need to?? Peter can index at whatever URL.**
- 10) Global search/replace to find all links to www.epa.gov/cleanpowerplanttoolbox/something and update to archive.epa.gov/epa/cleanpowerplanttoolbox/something.

Here's one nit: the CPP-Toolbox has a lot of links to CPP. We need to remember to change those links too, once the CPP web area gets archived.

I want to make sure I understand about the speeches page, if I proceed as the others, we'll move that page to Archive, we could at some future date, build a new page for Administrator Pruitt's speeches.

This new speeches page is what the intern would populate. By the way, as an aside, a fed or contractor needs to publish the pages when the new ones get built. Interns can't publish to the site.

my two cents on archiving speeches from WCMS site to archive:

Given the current speeches site is in WCMS, I propose (hope) that the archive process is done by whatever routine system is generally used for WCMS pages. That is not only "the way it's done" now but will remain consistent into the future.

What I mean by that is: I don't think we (me) should manually add new archive to the existing Speeches HTML archive pages that I created last winter from the old LOTUS NOTES site. This is the archive site I created manually from the old NOTES site.

https://archive.epa.gov/epapages/newsroom_archive/speeches

That said, I think there should also be a crosslink between the old speeches archive and a news speeches archive.

Talking to Christine, we think taking all previous Admin speeches and archiving them is the best approach vs the entire area. We'll put a placeholder sentence up there for Admin Pruitt till we get some content.

Right now, all speeches prior to 2014 are in the archive, we'll just archive through 2016. Do we in OWC have the proper rights to archive that content?

Oh, so it will be exactly like the English page then?

Either I translate the rest of the page:

As soon as I publish the Spanish PR, I'll translate the Spanish text that will appear on archived pages; <https://www.epa.gov/sites/production/files/signpost/cc.html>

And OEI may proceed to archive these pages shortly after that.

I believe that by 3:30 at the very latest the archiving process may begin.

By webform results, do you mean the past emails that have come in? I would say we should download the past 30 days in case we have not responded to them.

If ALL content on the Contact Us page is to be replaced, then the language would be:

Because archived content is not maintained and may no longer apply, we have disabled contact-us and other information-submittal forms on this site, and have removed other contact information.

This is not the current EPA website. To navigate to the current EPA website, please go to www.epa.gov. You can contact us there via our [main Contact Us page](#).

In the case of the CPPToolbox, the contact us links got stripped out. The contact us page is here: <https://archive.epa.gov/epa/cleanpowerplan-toolbox/forms/contact-us-about-clean-power-plan-toolbox-states.html>

We can add it back with some work on the archive server.

It got stripped inadvertently by me (I archived the contact us page first, which removed it from all other pages). That means I need to modify a step to my outline, below.

7) Archive. Save Contact Us and home page for last.

Looping in Danny – Danny let's talk about the items below. OK, so y'all will delete the Contact Us form?

Three more things to consider re: Contact Us:

1. If there is a Regional or state contacts page, what do we do with that?
2. If there is an email address on the Contact Us page like on this one, do we delete that? I think so, if it is an individual person, but not if it is a group email.

3. If the form goes to a group email, as it does on the CPP site, then we could delete the form but add

My notes:

- 1) Site owner must make sure all pages to be archived are published. Cannot proceed without this step.
- 2) Remove contact form from Contact Us page.
- 3) CPPT has 26 published pages.
- 4) Must change the site name (URL) so the right pages can be grabbed. I changed cleanpowerplantoolbox to cleanpowerplan-toolbox
- 5) Delete all unpublished pages—those will not archive. Optional step.
- 6) Grab some PDFs just to verify they've been deleted properly from www:
https://www.epa.gov/sites/production/files/2015-06/documents/us_acid_rain_program_elec_journal_aug_2007.pdf,
https://www.epa.gov/sites/production/files/2014-11/documents/clean_power_plan_supplemental_proposal_webinar_11-5-14_final_v2pptx.pdf,
https://www.epa.gov/sites/production/files/2016-09/documents/alabama_0.pdf
- a. Check. These are 404 at www and 200 at archive.
- 7) Archive. Page by page, since we're not so sure about bulk archive. If we do try bulk archive, do it late at night or early in the morning.
- 8) OK, everything is archived at <https://archive.epa.gov/epa/cleanpowerplan-toolbox.html>
- 9) Next steps: rename back to cleanpowerplantoolbox ... **do we need to?? Peter can index at whatever URL.**
- 10) Global search/replace to find all links to www.epa.gov/cleanpowerplantoolbox/something and update to archive.epa.gov/epa/cleanpowerplantoolbox/something.

Here's one nit: the CPP-Toolbox has a lot of links to CPP. We need to remember to change those links too, once the CPP web area gets archived.

As soon as I publish the Spanish PR, I'll translate the Spanish text that will appear on archived pages; <https://www.epa.gov/sites/production/files/signpost/cc.html>

And OEI may proceed to archive these pages shortly after that.

I believe that by 3:30 at the very latest the archiving process may begin.

My notes:

- 1) Site owner must make sure all pages to be archived are published. Cannot proceed without this step.
- 2) Remove contact form from Contact Us page.
- 3) CPPT has 26 published pages.
- 4) Must change the site name (URL) so the right pages can be grabbed. I changed cleanpowerplantoolbox to cleanpowerplan-toolbox

- 5) Delete all unpublished pages—those will not archive. Optional step.
- 6) Grab some PDFs just to verify they've been deleted properly from www:
https://www.epa.gov/sites/production/files/2015-06/documents/us_acid_rain_program_elec_journal_aug_2007.pdf,

- a. Check. These are 404 at www and 200 at archive.
- 7) Archive. Page by page, since we're not so sure about bulk archive. If we do try bulk archive, do it late at night or early in the morning.
- 8) OK, everything is archived at <https://archive.epa.gov/epa/cleanpowerplantoolbox.html>
- 9) Next steps: rename back to cleanpowerplantoolbox ... **do we need to?? Peter can index at whatever URL.**
- 10) Global search/replace to find all links to www.epa.gov/cleanpowerplantoolbox/something and update to archive.epa.gov/epa/cleanpowerplantoolbox/something.

Here's one nit: the CPP-Toolbox has a lot of links to CPP. We need to remember to change those links too, once the CPP web area gets archived.

In the case of the CPPToolbox, the contact us links got stripped out. The contact us page is here: <https://archive.epa.gov/epa/cleanpowerplan-toolbox/forms/contact-us-about-clean-power-plan-toolbox-states.html>

We can add it back with some work on the archive server.

It got stripped inadvertently by me (I archived the contact us page first, which removed it from all

other pages). That means I need to modify a step to my outline, below.

7) Archive. Save Contact Us and home page for last.

Looping in Danny – Danny let's talk about the items below. OK, so y'all will delete the Contact Us form?

Three more things to consider re: Contact Us:

1. If there is a Regional or state contacts page, what do we do with that?
2. If there is an email address on the Contact Us page like on this one, do we delete that? I think so, if it is an individual person, but not if it is a group email.
3. If the form goes to a group email, as it does on the CPP site, then we could delete the form but add

My notes:

- 1) Site owner must make sure all pages to be archived are published. Cannot proceed without this step.
- 2) Remove contact form from Contact Us page.
- 3) CPPT has 26 published pages.
- 4) Must change the site name (URL) so the right pages can be grabbed. I changed cleanpowerplantoolbox to cleanpowerplan-toolbox
- 5) Delete all unpublished pages—those will not archive. Optional step.
- 6) Grab some PDFs just to verify they've been deleted properly from www:
https://www.epa.gov/sites/production/files/2015-06/documents/us_acid_rain_program_elec_journal_aug_2007.pdf,
https://www.epa.gov/sites/production/files/2014-11/documents/clean_power_plan_supplemental_proposal_webinar_11-5-14_final_v2pptx.pdf, https://www.epa.gov/sites/production/files/2016-09/documents/alabama_0.pdf
- a. Check. These are 404 at www and 200 at archive.
- 7) Archive. Page by page, since we're not so sure about bulk archive. If we do try bulk archive, do it late at night or early in the morning.

8) OK, everything is archived at <https://archive.epa.gov/epa/cleanpowerplan-toolbox.html>

9) Next steps: rename back to cleanpowerplantoolbox ... **do we need to?? Peter can index at whatever URL.**

10) Global search/replace to find all links to www.epa.gov/cleanpowerplantoolbox/something and update to archive.epa.gov/epa/cleanpowerplantoolbox/something.

Here's one nit: the CPP-Toolbox has a lot of links to CPP. We need to remember to change those links too, once the CPP web area gets archived.

Our directions have not been entirely clear, so is this the exact request:

1. Add some Spanish language content and a News Release link to <https://www.epa.gov/sites/production/files/signpost/cc.html>
2. Purge the cache and re-publish that page
3. Take the following .html pages and redirect the URLs to the above signpost page:

Main Spanish climate change page:

<https://espanol.epa.gov/espanol/el-cambio-climatico-y-usted>

Climate change FAQs:

<https://espanol.epa.gov/espanol/datos-sobre-el-cambio-climatico-respuestas-las-preguntas-mas-frecuentes>

They won't act without his explicit written direction.

They'll do all the prep but won't actually execute without his word

Thanks.. also, do you think we should put something on the front page about all of this ..

Profile new page

Say we are updating ?

Will ask jp as well – he is in a meeting and then will ask him on 404 – know you sent to him

Thanks ng

John,

All pages on our site have a "contact us" link. The mockup is currently pointing to press@epa.gov. Probably not the best email. Is there a different one you'd rather have?

Also, in the mockup you can see a side box next to the banner. Since we're redirecting URLs to this page, this would be a good place to put some language explaining either what this is or how to find the pages it replaces in the archive.

EPA Kicks Off Website Updates

04/28/2017

Contact Information:

(press@epa.gov)

WASHINGTON – EPA.gov, the website for the United States Environmental Protection Agency, is updating the agency's new direction under President Donald Trump and Administrator Scott Pruitt. The process, which reflect the approach of new leadership, is intended to ensure that the public can use the website to find the information they need. The changes will comply with agency ethics and legal guidance, including the use of proper language. A screenshot of the last administration's website will remain available from the main page.

"As EPA renews its commitment to human health and clean air, land, and water, our website needs to reflect the agency," said J.P. Freire, Associate Administrator for Public Affairs. "We want to eliminate confusion and make room to discuss how we're protecting the environment and human health by protecting the law."

The first page to be updated is a page reflecting President Trump's Executive Order on energy and the environment, so-called Clean Power Plan. Language associated with the Clean Power Plan, written by the last administration, is also being reviewed.

Last sentence of the first paragraph:
